

ANNUAL REPORT

The academic year 2024–2025 at MIET Public School has been a year of innovation, achievement, and all-round development. With the guidance of our visionary management, the dedication of our educators, and the unwavering support of our parents, we have continued to uphold our mission to provide a holistic and future-ready education.

Academic Achievements

Our students have demonstrated commendable academic excellence in board and internal assessments. The school has implemented the National Education Policy (NEP) 2020 framework across all levels—Foundational, Preparatory, Middle, and Secondary stages.

Emphasis was placed on conceptual understanding, experiential learning, and life skills.

Subject enrichment activities, including model making, research projects, and presentations, were integrated into assessments.

Co-Curricular and Inter-House Activities

To encourage holistic growth, a vibrant range of co-curricular activities was conducted:

Inter-House Competitions: Debates, quizzes, sports, dramatics, art, and music helped students develop team spirit and creativity.

Celebration of Days: Independence Day, Republic Day, Environment Day, and various festivals were celebrated with enthusiasm and student participation.

Educational Trips: Students visited science parks, museums, and local industries for practical exposure.

Parent Teacher Meetings

Understanding the importance of a strong parent-school partnership, regular Parent Teacher Meeting sessions were held physically. These sessions provided a platform to review students' academic and emotional well-being.

Teacher Enrichment and Training

Continuous professional development of teachers was a priority this year. The school organized:

Workshops on NEP, classroom management, and inclusive education.

Digital literacy and AI-readiness programs.

Regular staff meetings to share best practices and review academic progress.

Examinations and Assessments

Students were assessed through formative and summative evaluations. Besides traditional exams, assessments included:

Monthly presentations to enhance public speaking and subject mastery.

Portfolio evaluations, peer assessments, and teacher observations.

Assessments were in complete alignment with NEP.

Infrastructure Development

MIET Public School continued its commitment to upgrading infrastructure:

Digital Classrooms were introduced in all the classes.

Science and computer labs were updated with latest technology.

Enhanced sports facilities and a well-equipped infirmary ensured physical well-being.

Student Leadership and Social Initiatives

Students were encouraged to take up leadership roles through the Student Council. Community service and environmental awareness drives were undertaken as part of our commitment to responsible citizenship.

Conclusion

The 2024–2025 session stands as a testament to the school's commitment to academic excellence and character development. MIET Public School remains dedicated to nurturing young minds into responsible, skilled, and compassionate citizens.

We thank our stakeholders—students, parents, teachers, and the management—for their continuous support and belief in our vision.
